

PoE Pro

Eliminate guesswork from your PoE installations

SAVE \$120

The PoE Pro eliminates guesswork when installing, maintaining and troubleshooting PoE devices and data cabling.

- **No more trial and error**
Accurately measure the maximum power available
- **Supports PoE up to 90W (PoE++)**
Test all PoE Classes (0-8) and Types (af/at/bt)
- **Identifies the powered pairs**
Helps to determine PoE switch or mid-span injector
- **Verify the PoE installation**
Pass / Fail indication to IEEE standards
- **Extended Power Test**
Some switches may provide power exceeding their IEEE Class rating. Measure the maximum available power up to 90 watts.
- **Plus all the familiar cables testing features of the VDV II Pro**

	MSRP	Saving	Discount Price (ex VAT)
PoE TESTER - PoE Pro (R158004)	\$ 595	\$ 120	\$ 475
